

HBD UFO HIGHBAY LIGHT

NSF Certified Food Safety Light

Energy Savings...Simplified.

Introduction

- ◆ HBD series high bay light with smooth housing prevents the accumulation of substances such as food debris and dust, which is the premier choice for harsh ambient lighting.
- ◆ As an NSF certified product, the luminaire is IP66 and IP69K rated, withstand the rigors of food processing and high pressure washing. Its standard efficiency is 150 lumen per watt. But it can reach up to 190 lumen per watt, and its highest lumen reaches 38,000 lumens.
- ◆ It supports built-in sensors and emergency functions for selection.
- ◆ The HBD Series can be used in food processing and food safe environments. Applications include poultry processing, food and beverage processing, commercial kitchens and manufacturing facilities, among others.
