

DIRECT REPLACEMENT FOR METAL HALIDE

OEO EZ LED Ultra

OEO EZ LED Ultra Series is designed to directly replace 175W to 400W metal halide lamps. It is compatible with your traditional HID fixtures and emits more light without rewiring the fixture. Simply remove the MH bulb and replace it with the EZ LED for longer life while using a fraction of the power.

FEATURES

- Simply Screw in EZ LED to Existing Open High Bay Fixtures
- Requires No Ballast Bypass, No Rewiring, No Electrician
- Quickest Way to Upgrade to LED Technology
- Reduces Energy Consumption By 50-60%
- Long Life LED 50,000 Hours, L70
- Prevent Dark Ceilings with Optional Uplighting
- Fast ROI Payback
- 5,000K; 83+ CRI
- Reduced HVAC Costs Since LED is 90% Cooler than Metal Halides
- No Mercury or Hazardous Materials

APPLICATIONS

- Warehouse
- Big Box Retailers
- Gymnasiums & Sports Arenas
- Auto Dealerships

SPECIFICATIONS

- **POWERED BY:** Metal Halide Ballast
- **ENERGY SAVINGS:** 50-60%
- **CCT:** 5000K
- **BEAM ANGLE:** 95° Distribution
- **CRI:** 83+
- **OPERATING TEMP:** -4°F to 131°F
- **MOUNTING:** Vertical, Open
- **START UP:** Instant on/off, Instant Re-strike
