

**OFF-GRID SOLAR FIXTURE**

# Post Top Light (SPT)

The Solar Lighting Post Top fixture features an all-in-one design. The solar panel, light engine and battery are built right into the LED fixture. No need for a power source, which eliminates the need for wiring and trenching. The Solar Post Top Light is easy to install, just use the supplied screws to secure the light to the pole.

**FEATURES**

- 20W is comparable to 150W HID
- All-in-one design, the solar panel and battery are built right into the LED fixture
- No need for trenching or wiring, this fixture does not connect to any power feed
- Perfect for greenspace and greenway lighting, parks, parking lots, transit shelters and stops
- Long life battery lasts three nights with a one day charge
- Fixture turns on at night automatically and can be set to different operating modes (see installation instructions for details)
- Li-Ion battery lasts at least 1500 charge cycles and is replaceable
- Aluminum Alloy and Polycarbonate housing makes it strong and lightweight

**DIMENSIONS**

**SPECIFICATIONS**

- **POWERED BY:** Solar
