

OVERVIEW

Manufactured by GE, the OEO EZ LED OMNI is designed to directly replace 400W metal halide lamps, be compatible with the traditional HID fixture, and emit more light output without rewiring anything. Simply remove the MH bulb and replace it with the OEO EZ LED for longer life while using a fraction of the power.

FEATURES

- Simply screw into existing metal halide ballasts; no rewiring
- Passive heat sink for harsh, dirty conditions; fanless cooling
- 50,000 hours, 5 year warranty
- 360° light output, great for acrylic lens
- Open fixtures only, no lens covers
- Fast ROI payback
- Instant on/re-strike
- Reduced HVAC costs since LED is 90% cooler
- Reduced material and labor costs

APPLICATIONS

- Metal Fabricators
- Machine Shops
- Welders
- Paper Converters
- Wood Shops
- Warehouse and Manufacturing Facilities
